About Me

Highly-skilled and motivated senior software engineer with 7 years of mobile development experience. Working for leading financial and technology enterprises. Excels at analysis, problem solving and technical leadership to deliver highly reliable and available systems for both traditional and mobile customers. Well versed in a variety of modern technologies and methodologies used in hosting and development of large scale applications with a focus on mobile applications, Proficient in translating designs & wireframes into high-quality code, and writing application interface code. Adept at monitoring & maintaining frontend performance and troubleshooting & debugging the same to bolster overall performance.

Primary Skills:

React Native

Android (Java)

ReactJS

NodeJS

Git

Docker

Google Cloud

UI/UX (Figma)

SQL

Personal Skills

- Time management
- Team work
- Fast learner
- Breadth of knowledge
- Self-motivated

Languages

Education

02/2017 - 02/2019

Master of Computer Science
at UKM University

09/2008 - 07/2012

B.sc (Hons) Mobile Computing
at UCSI University

Hobbies

Photography

Books

Cycling

Video games

Chess

Movie

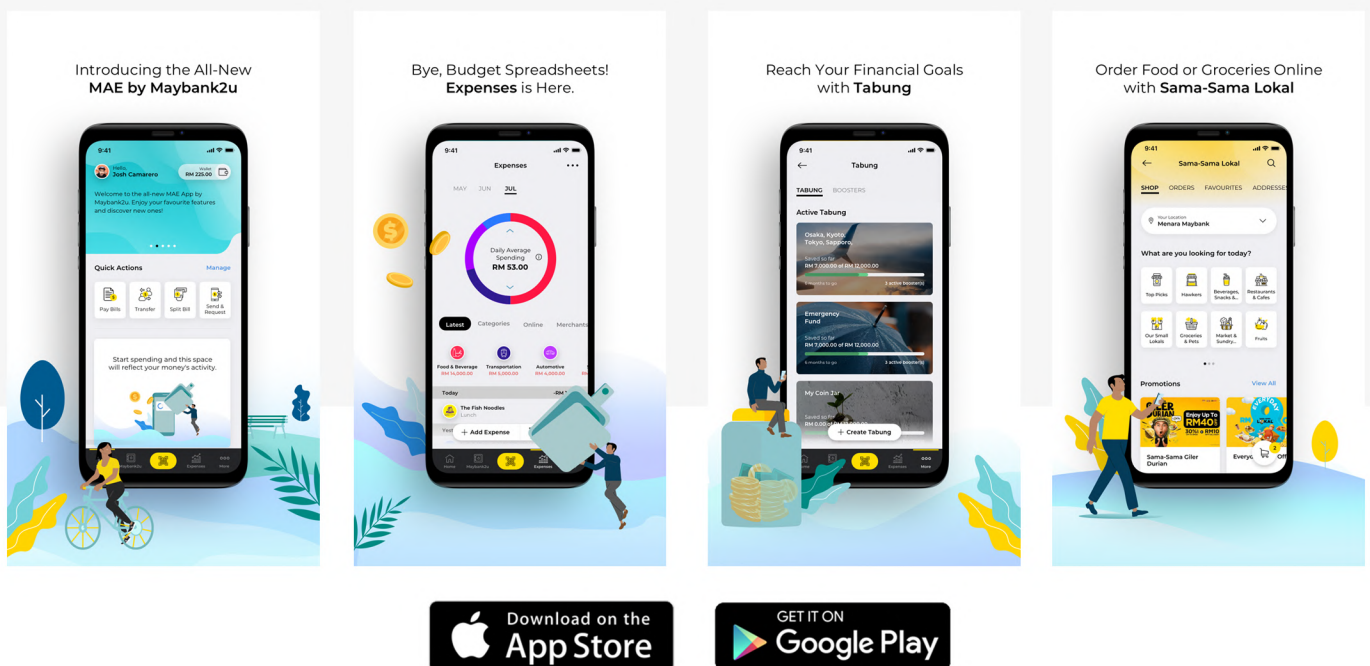

Work Experiences

Senior Software Engineer (React native) 05/2021 - 7/2022 at MayBank

- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- Reach out to the open source community to encourage and help implement mission-critical software fixes—React Native moves fast and often breaks things.
- Maintain code and write automated tests to ensure the product is of the highest quality.

Achievements:

It's the official mobile app by MayBank Singapore

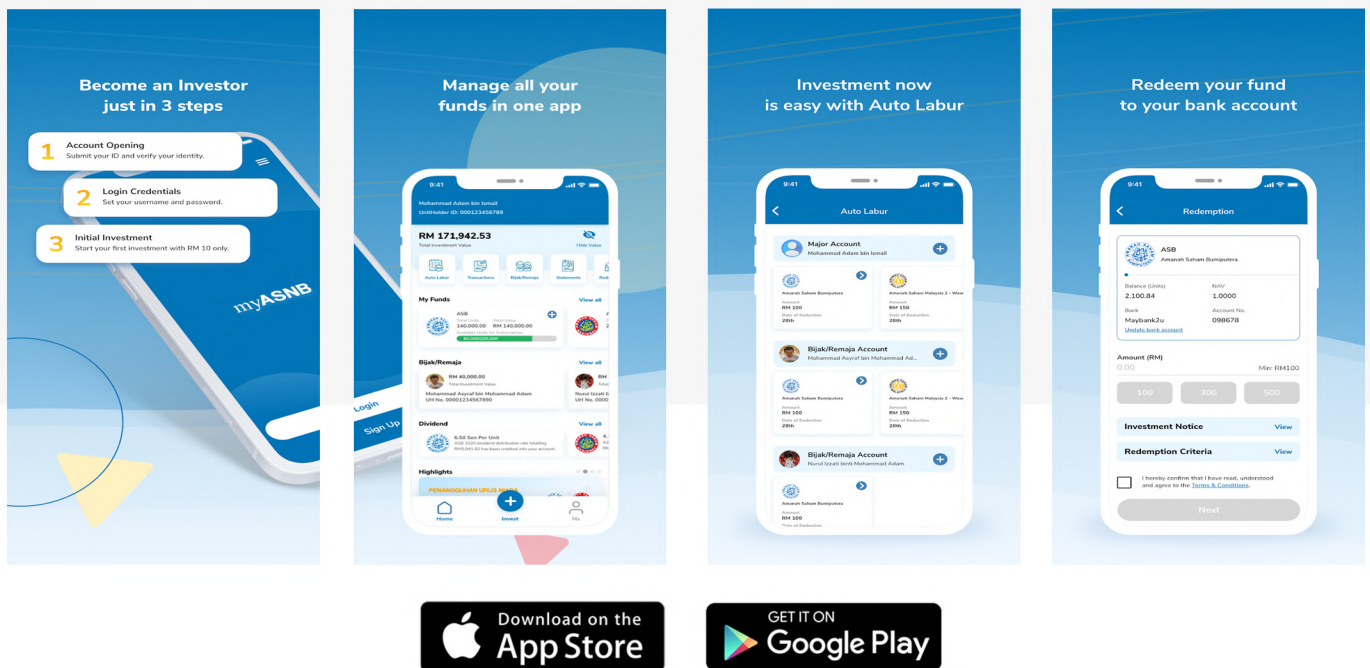

React native developer 10/2018 - 03/2021 at JMA Global Solution (PNB)

- Build pixel-perfect, buttery smooth UIs across both mobile platforms.
- Leverage native APIs for deep integrations with both platforms.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- Reach out to the open-source community to encourage and help implement mission-critical software fixes—React Native moves fast and often breaks things.
- Maintain code and write automated tests to ensure the product is of the highest quality.
- Performed beta testing with TestFlight and Android Beta Channel Releases.
- Integrated multiple React Native modules such as react-navigation, react-native-firebase.

Achievements:

myASNB app :It's the official mobile app by Amanah Saham Nasional Berhad, a wholly-owned subsidiary of Permodalan Nasional Berhad that allows its users to safely and conveniently view their ASNB investment portfolio and perform additional investments on their mobile/tablet from anywhere, anytime.

React native 10/2016 - 12/2017

FreeSoft

- Create pixel-perfect, smooth user interfaces for both mobile platforms.
- Identifying and removing performance barriers and bugs to get performance that feels natural.
- Engage the open-source community to support and assist with the implementation of mission-critical software fixes—React Native moves quickly and frequently causes problems.

Android Developer 03/2014 - 09/2016

UST

- Working with a team of programmers to create the main official application for the University of Science & Technology
- Testing & enhancing the overall quality of the UST app.
